

Dec 2013

**Press Release : ABB Introduces a New Distributor
for Measurement Products**

Effective December 3, 2013 - Burlington, Ontario

ABB Measurement Products is pleased to announce the appointment of Davis Controls as the new representative for ABB Measurement Products in the Province of Ontario.

Davis Controls Ltd. was founded in 1933 and has been servicing and supporting the Factory and Process Automation marketplace in Canada during this time. Davis Controls combines technical and process expertise and dedication to customer service to provide the best solutions and products.

ABB Measurement Products offers instrumentation and analytical solutions to enable industrial and energy customers to operate more efficiently and profitably. Key product groups include Analytical Instruments, Field Devices, Flow Measurement, Level Measurement and Instrumentation Service.

ABB's Measurement Products business unit (www.abb.com/measurement) is among the world's leading manufacturers and suppliers of instrumentation and analyzers. With thousands of experts around the world and high-performance technology, ABB's team is dedicated to making measurement easy for its customers.

ABB (www.abb.com) is a leader in power and automation technologies that enable utility and industry customers to

improve their performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 150,000 people.

Neil Montgomery and Paul Chabot – National Sales & Marketing Director - Measurement Products - shake hands after the agreement is signed.
