The Filtration and Separation Division of
Parker Hannifin Corporation, the global
leader of motion and control
technologies, is pleased to announce the
appointment of Davis Controls Ltd
headquartered in Oakville, Ontario as its

exclusive distributor for Balston branded industrial filtration products for
the Provinces of MB, SK, AB, BC and the three Territories NWT, YT and NU.
Davis Controls will be responsible for the functions of sales, marketing,
inventory and other support functions for Parker's Balston products across
all of Canada. This will include the addition of Balston Specialists to their
team in Western Canada and the inclusion of inventory from new office
facilities in Calgary:

Davis Controls Ltd.
16-4620 Manilla Road S.E.
Calgary AB T2G 4B7
(403) 255-5035
(403) 255-5077

Davis Controls has been established for 80 years as a well known Canadian
distributor of automation solutions and process control equipment. Its
main focus is on instrumentation for level, flow and pressure control.
Davis provides a broad range of complementary hardware and software
such as programmable logic controllers, variable frequency drives, motion
and proximity sensors, temperature controllers and PC based software.
Davis provides coverage throughout the Canadian market from offices
located in strategic industrial centres including Montreal, Calgary,
Edmonton and Vancouver as well as from its head office in Oakville,
Ontario.
