New! 3300 Series Compact Low Pressure OEM Pressure Transmitters

For OEMs who need consistent high levels of performance, reliability and stability the 3300 Series offers a small package size with all stainless wetted parts at an unbeatable price performance ratio. A wide choice of electrical outputs as well as both electrical and pressure connections means the unit is suitable for most applications without modification. The compact construction of the 3300 series makes it ideal for installation where space is at a premium.

Specifications:

- 15 to 250 psi (1 to 16 bar) pressure ranges
- Choice of outputs, electrical connections and pressure ports
- Operating temperature up to 257°F (125° C)
