InduSoft Web Studio is preparing to release the newest version of this award winning SCADA/HMI software, and we are inviting all InduSoft Web Studio users to attend this webinar introducing v7.1.

This webinar will be hosted by an InduSoft product manager, and will discuss:

- **The new features of InduSoft Web Studio v7.1**
- **Using the new tools available in InduSoft Web Studio v7.1**

There are some great new additions to look forward to in the newest version of InduSoft Web Studio. We've enhanced the SMA (Studio Mobile Access) client to offer better support for tablets and smartphones, and integration with Microsoft's Team Foundation Server, which allows for collaboration, project comparison, and Application Lifecycle Management (ALM). Learn more about these, and many other exciting

devices such as cell phones, pagers, and personal digital assistants (PDAs) into industrial automation and test and measurement systems.
