[About Us](#)[Value-Added Services](#)[Industry Links](#)**0.01 Micron Membrane Filters**

- **Filtration to 0.01 micron**
- **No particle shedding**
- **Integral prefilter protects the membrane**
- **Corrosion resistant housings**
- **Pressure to 5,000 psig**
- **PTFE membrane with glass and fluorocarbon prefilter**
- **Chemically inert to most gases**
- **Easy to install**

**GS Series Membrane Filters**

The Balston GS Series Membrane Filter Cartridges combine absolute membrane filtration down to 0.01 pm, with an integral pre-filter to protect the membrane. Ideally suited for high purity compressed air and gas requirements, these membrane cartridges are available in several housing configurations shown above.

**Use as a Final Filter for:**

Ultra-high purity gases
